Item 18 – The Board of Directors’ proposal regarding guidelines for remuneration to the executive management

The Board of Directors’ proposal in essence:

TeliaSonera objective is to offer remuneration levels and other employment conditions required to attract, retain and motivate high calibre executives needed to maintain the success of the business. Remuneration should be built upon a total reward approach allowing for a market relevant – but not market leading - and cost effective executive remuneration based on the components base salary, pension and other benefits.

The base salary should reflect the competence required in the position and the responsibility, complexity and business contribution of the executive. The base salary should also reflect the performance of the executive and consequently be individual and differentiated.

Pension and other retirement benefits shall be based on the defined contribution method.

The termination period may be up to six month when given by the executive and up to 12 months when given by the employer (in relation to the CEO 6 months). In case of termination given by the employer, the executive may be entitled to a severance payment of up to 12 months (in relation to the CEO 24 months). The severance payment shall not constitute a basis for calculation of vacation pay or pension benefits and shall be reduced should the executive be entitled to pay from a new employment or from conducting his own business during the period under which the severance is payable to the executive. The executive may be entitled to a company car benefit, health care provisions, travel insurance etc. in accordance with local labour market practice.

The Board of Directors is allowed to make minor deviations on an individual basis from the principles stated above.

Item 19 – Authorization for the Board of Directors to resolve on acquisitions of own shares

The Board of Directors proposes that the annual general meeting authorize the Board of Directors to resolve, on one or more occasions prior to the 2014 annual general meeting, on acquisitions of own shares, which may take place both on Nasdaq OMX Stockholm and/or Nasdaq OMX Helsinki and in accordance with an offer to acquire shares directed to all shareholders or through a combination of these two alternatives. The maximum number of shares to be acquired shall be such that the Company’s holding from time to time does not exceed 10 percent of all shares in the Company. Acquisitions of shares on Nasdaq OMX Stockholm and/or Nasdaq OMX Helsinki may only be made at a price within the spread between the highest bid price and lowest ask price prevailing from time to time on the exchanges. Acquisitions of shares by way of offers to acquire shares directed to all the Company’s shareholders may take place at an acquisition price which exceeds the prevailing market price. It will thereupon be possible, by means of detachable and tradable sales rights (*Sw. säljrätter*), for the shareholders to enjoy the value of the premium which may arise as a consequence of the Company acquiring shares at a price in excess of the market price for the share. In order to compensate shareholders who neither sell sales rights nor participate in the acquisition offer, for their non-exercised sales rights, a bank or another financial institution that may be appointed by the Company shall, upon expiry of the application period but otherwise in accordance with the terms and conditions of the acquisition offer, be entitled to transfer shares to the Company and to pay compensation, amounting to the value of the non-exercised sales rights less the bank’s costs, to the shareholders concerned. However, the compensation payable may not exceed the compensation that may be paid per sales right in the event of an offer of commission-free sale of sales rights. In the event foreign legal and/or administrative rules significantly impede implementation of an acquisition offer in a particular country, the Board of Directors or a party appointed by the Board of Directors, shall be entitled to effect a sale of sales rights on behalf of the shareholders concerned and shall, instead, pay the cash amount received upon a sale carried out with due care, less costs incurred. The Board of Directors shall be entitled to decide on other terms and conditions for the acquisition.

The purpose of the proposal above is to provide the Board of Directors with an instrument to adapt and improve the Company’s capital structure and thereby create added value for the shareholders, and to enable the company to transfer own shares under long-term incentive programmes approved by a general meeting.

The Board of Directors also intends to propose that future annual general meetings of the Company authorize the Board of Directors to resolve on acquisitions of own shares on terms and conditions that are materially equivalent to those set forth above. At present, the Company does not hold any own shares. The Board of Directors intends to propose the 2014 annual general meeting to cancel those own shares acquired, not hedging the company's obligations to deliver shares under long-term incentive programs approved by a general meeting, through a reduction of the Company's share capital without repayment to the shareholders.

Item 20 - The Board of Directors' proposal for (a) Implementation of a long-term incentive program 2013/2016 and (b) hedging arrangements in relation thereto

The Board of Directors' proposal in essence:

(a) Implementation of a long-term incentive program 2013/2016

The proposed long-term incentive program for 2013/2016 ("Performance Share Program 2013/2016") shall comprise approximately 100 key employees within the TeliaSonera group of companies (the "Group") and in total no more than 1,360,000 TeliaSonera shares may be transferred to participants in the program upon fulfillment of the performance conditions set out in the program ("Performance Shares"). The maximum number of Performance Shares that finally may be allotted, corresponds to approximately 0.03 percent of the total number of outstanding shares in the Company. The Board of Directors intends to propose forthcoming annual general meetings to implement performance-based share programs on similar conditions that apply to the now proposed program.

Participants in the program shall be given the opportunity to, provided that certain performance conditions, consisting of financial targets linked to EPS (Earnings Per Share) and TSR (Total Shareholder Return), are met during the three financial years 2013-2015 (the "Performance Period"), receive without consideration final allotments of Performance Shares. Participation in the program requires that the participants have invested in or allocated to the program TeliaSonera shares ("Saving Shares") corresponding to a value of two (2) percent of a participant's annual gross base salary (i.e. before taxes) per year-end 2012 or, if a participant has been employed thereafter, the calculated annual gross base salary for 2013 (the "Base Salary"). Saving Shares shall normally be acquired or allocated to the program during a period of approximately five weeks following the publication of the Company's Interim Report for the first quarter of 2013, but in the event of new recruitments thereafter, participation in the program may be offered and acquisition or allocation of Saving Shares may take place until the end of August 2013. A condition for final allotments of Performance Shares shall normally be that the participant has been employed within the Group during the whole period from entering into the program until the day of publication of the Company's Interim Report for the first quarter of 2016 (the "Vesting Period") and that all Saving Shares held by a participant have been kept during such period.

Maximum preliminary EPS-based allotment of Performance Shares for each of the financial years 2013, 2014 and 2015, shall amount to the number of Performance Shares corresponding to approximately 5.00 percent of the Base Salary for the key employee divided by a volume-weighted average price, calculated as the average of the daily noted volume-weighted purchase price of the Company's share on NASDAQ OMX Stockholm's official list during December for each of the years 2012, 2013 and 2014.

Maximum TSR-based allotment of Performance Shares, shall amount to the number of Performance Shares corresponding to 15 percent of the Base Salary for the key employee divided by a volume-weighted average price, calculated as the average of the daily noted volume-weighted purchase price of the Company's share on NASDAQ OMX Stockholm's official list during December 2012.

The targets for EPS based allotments as well as TSR based allotments of Performance Shares, shall include a minimum level, which must be exceeded in order for any allotment to occur at all, as well as a maximum level in excess of which no additional allotment will occur. Should lower financial targets than the maximum level be achieved, a lower number of Performance Shares will be allotted.

Final allotments of Performance Shares will take place following the publication of the Company's Interim Report for the first quarter of 2016. Recalculation of final allotments of Performance Shares shall take place in the event of an intervening bonus issue, share repurchase offer, split, rights issue and/or other similar

events. In addition, the maximum financial outcome for a participant, and the maximum number of Performance shares to be finally allotted, shall be capped at a value corresponding 37.5 percent of the Base Salary of each key employee.

Upon termination of the employment within the Group during the Vesting Period, the right to receive final allotments of Performance Shares normally lapses. In addition to what is set out above, the Board of Directors shall under certain circumstances be entitled to reduce final allotments of Performance Shares or, wholly or partially, terminate Performance Share Program 2013/2016 in advance and to make such local adjustments of the program that may be necessary to implement the program with reasonable administrative costs and efforts in the concerned jurisdictions, including, inter alia, to offer cash settlement as well as to waive the requirement for investing in or allocating Saving Shares to the program for participants in such jurisdictions.

(b) Hedging arrangements for the program

The Board of Directors has considered two alternative hedging methods for Performance Program 2013/2016; either a hedging arrangement with a bank or other financial institution securing delivery of shares under the program or transfers of shares held by the Company itself to participants in Performance Share Program 2013/2016. The Board of Directors considers the latter alternative as its main alternative. However, should the annual general meeting not approve the proposed transfer of shares held by the Company itself, the Board of Directors may enter into a hedging arrangement set out above with a third party to hedge the obligations of the Company under the program.

Based on the above conditions, the Board of Directors proposes that no more than 1,360,000 TeliaSonera shares may be transferred to participants in Performance Share Program 2013/2016 as Performance Shares. Entitled to receive allotments of Performance Shares without consideration shall be such persons within the Group being participants in Performance Share Program 2013/2016. Further, subsidiaries shall be entitled to acquire shares without consideration, in which case such company shall be obliged, pursuant to the terms and conditions of Performance Share Program 2013/2016, to immediately transfer the shares to such persons within the Group that participate in Performance Share Program 2013/2016. Transfers of shares shall be made without consideration at the time and on such additional terms and conditions that participants in Performance Share Program 2013/2016 are entitled to receive final allotment of shares. The number of shares that may be transferred shall be subject to recalculation in the event of an intervening bonus issue, share repurchase offer, split, rights issue and/or other similar events.

The Board of Directors' proposes that the resolutions pursuant to items 20 (a) and (b) above shall be resolved by the annual general meeting as two separate resolutions. The proposal in item 20 (b) regarding transfers of shares shall be conditional upon that the annual general meeting previously has approved item 20 (a), i.e. the implementation of the proposed program.

Items 21 and 24 – Proposals from the shareholders Carl Henric Bramelid, Åke Raushagen and Lars Bramelid

The proposals are stated in the text under items 21 – 24 on the agenda.

Majority requirements

The resolutions of the annual general meeting regarding item 19 above shall, in order to be valid, be supported by shareholders representing at least two thirds of the votes cast as well as of the shares represented at the meeting.

The resolution regarding implementation of the proposed long-term incentive program pursuant item 20 (a) above requires a simple majority vote.

The resolution of the annual general meeting regarding the proposed hedging arrangements pursuant to item 20 (b) above requires in order to be valid that no less than nine-tenths of both the votes cast and the shares represented at the annual general meeting have to approve the proposal.
