**Appropriation of the Company’s profit and record date**

The Board of Directors proposes that a dividend of SEK 3.00 per share, in total SEK 12,990,254,343.00, is distributed to the shareholders and that April 10, 2015 be set as the record date for the dividend. If the annual general meeting resolves in accordance with the proposal, it is estimated that Euroclear Sweden AB will execute the payment on April 15, 2015.

**Item 18 – Principles for remuneration to Group Executive Management**

The Board of Directors proposes that the annual general meeting 2015 resolves on the following principles for remuneration to Group Executive Management. Group Executive Management is defined as the President and the other members of the Management Team.

The objective of the principles is to ensure that the Company can attract and retain the best people in order to support the purpose and strategy of the Company. Remuneration to Group Executive Management should be built on a total reward approach and be market relevant, but not leading. The remuneration principles should enable international hiring and should support diversity within Group Executive Management. The market comparison should be made against a set of peer group companies with comparable sizes, industries and complexity. The total reward approach should consist of fixed salary, pension benefits, conditions for notice and severance pay and other benefits.
Fixed salary

The fixed salary of a Group Executive Management member should be based on competence, responsibility and performance. The Company uses an international evaluation system in order to evaluate the scope and responsibility of the position. Market benchmark is conducted on a regular basis. The individual performance is monitored and used as a basis for annual reviews of fixed salaries.

Pension

Pension and retirement benefits should be based on a defined contribution model, which means that a premium is paid amounting to a certain percentage of the individual's annual salary. When deciding the size of the premium the level of total remuneration should be considered. The level of contribution should be benchmarked and may vary due to the composition of fixed salary and pension. The retirement age is normally 65 years of age.

Other benefits

The Company provides other benefits in accordance with market practice. A Group Executive Management member may be entitled to a company car, health and care provisions, etc. Internationally hired Group Executive Management members and those who are asked to move to another country can be offered mobility related benefits for a limited period of time.

Notice of termination and severance pay

The termination period for a Group Executive Management member may be up to six (6) months (twelve (12) months for the President) when given by the employee and up to twelve (12) months when given by the Company. In case the termination is given by the Company the individual may be entitled to a severance payment up to twelve (12) months. Severance pay shall not constitute a basis for calculation of vacation pay or pension benefits. Termination and severance pay will also be reduced if the individual will be entitled to pay from a new employment or if the individual will be conducting own business during the termination period or the severance period.

The Board of Directors may make minor deviations from the principles above.

Item 19 – Authorization for the Board of Directors to decide on acquisition of the Company’s own shares

Background information and reasons

In order to provide the Board of Directors with an instrument to adapt and improve the Company's capital structure and thereby create added value for the shareholders, and/or to give a possibility to the Company to transfer its own shares under any long-term incentive programs approved at a general meeting, the Board of Directors proposes that the annual general meeting authorize the Board of Directors to, on one or more occasions before the annual general meeting 2016, decide on acquisition of the Company’s own shares on the terms and conditions set out below. In order to create an efficient instrument to achieve this, the Board of Directors also intends to propose that future annual general meetings of the Company authorize the Board of Directors to decide on acquisition of the Company’s own shares on terms and conditions materially equivalent to those set out below. At present, the Company does not own any treasury shares.
Authorization for the Board of Directors to decide on acquisition of the Company’s own shares

The Board of Directors proposes that the annual general meeting authorize the Board of Directors to decide on acquisition of the Company’s own shares on the main terms and conditions set out below.

1. Acquisitions of shares may be made on (i) Nasdaq Stockholm and/or Nasdaq Helsinki or (ii) in accordance with an offer to acquire shares made to all shareholders or by a combination of these two alternatives.

2. The authorization may be exercised on one or more occasions before the annual general meeting 2016.

3. A maximum number of shares may be acquired so that the Company’s holding at any time does not exceed 10 percent of all the shares in the Company.

4. Acquisitions of shares on Nasdaq Stockholm and/or Nasdaq Helsinki may only be made at a price within the spread between the highest bid price and lowest ask price from time to time on Nasdaq Stockholm and/or Nasdaq Helsinki.

5. If the Company considers it appropriate and suitable, shares may be acquired by offers made to all the Company’s shareholders to purchase shares at a price above the prevailing market price. It will then be possible, by means of detachable sales rights (Sw. säljrätter), for the shareholders to enjoy the value of any premium arising due to the Company acquiring shares at a price above the market price of the share. Should this occur, it is intended that the sales rights will be traded on Nasdaq Stockholm and Nasdaq Helsinki, respectively.

In order to avoid shareholders not enjoying any financial value represented by an acquisition offer made at a premium, because they neither sell sales rights nor participate in the acquisition offer, the Company may appoint a bank or another financial institution (the “Bank”) which, provided it compensates shareholders holding unexercised sales rights on expiry of the application period, may transfer to the Company the number of shares corresponding to the number of sales rights that would have conferred entitlement to a transfer of such shares and for which compensation is paid. If so, the Bank may acquire the shares to be transferred to the Company, as set out above, in the market. The Bank appointed by the Company will be identified in the Board of Directors’ resolution on a possible acquisition offer.

The compensation that the Bank, where applicable, is to pay to the shareholders concerned for each unexercised sales right must equal the lowest of (i) the difference in the price at which the Company has acquired shares under the acquisition offer and the average price per share that the Bank has paid to acquire the shares in question divided by the current acquisition ratio¹ in the acquisition offer, less the Bank’s actual handling cost, and (ii) the compensation that may be paid per sales right in the event of an offer of commission-free sale of sales rights.

With respect to the sales rights for which the Bank may pay compensation as set out above, the Bank is entitled to transfer shares to the Company. An application to transfer shares must be made no later than the day that the Board of Directors determines following expiry of the application period for the acquisition offer. The terms and conditions of the acquisition offer also apply to the Bank’s transfer of shares.

6. If foreign legal and/or administrative rules significantly hinder implementation of an acquisition offer in a particular country, the Board of Directors or its nominee may sell sales rights on behalf of the

¹ The number of shares (and thereby normally also the number of sales rights) required for the transfer of one share to the Company.
shareholders concerned and will, instead, pay the cash amount received on a sale carried out with due care, less costs incurred.

7. The Board of Directors may decide on the other terms and conditions for the acquisition. The Board of Directors may also authorize the chair of the Board of Directors to make any minor adjustments that may prove necessary to carry out the Board of Directors’ resolution to acquire the Company’s own shares.

Item 20 – (a) Implementation of a long-term incentive program 2015/2018 and (b) hedging arrangements for the program

Background

The remuneration framework within the TeliaSonera group (the “Group”) may consist of fixed base pay, annual variable pay, functional variable pay, long-term incentives, pensions and other benefits. A number of key employees participate in long-term incentive programs approved at previous annual general meetings. All in all, these parts constitute an integrated remuneration package. In accordance with the decisions of the annual general meetings 2010, 2011, 2012, 2013 and 2014 neither annual nor long-term variable cash remuneration is paid to members of the TeliaSonera Group Executive Management team.

The Board of Directors has carried out a review of the 2014/2017 Performance Share Program to ensure that it continues to meet its stated objectives – i.e. to strengthen the ability to recruit and retain talented key employees, drive long-term company performance, align key employees’ interests with those of the shareholders and encourage key employee shareholding.

As a result of the review, the Board of Directors considers that a long-term incentive program should be implemented for key employees of the Group also this year. The long-term incentive program proposed by the Board of Directors to be implemented during 2015, relating to the financial years 2015-2017 and that may result in so-called performance shares being received during the spring of 2018 (the “Performance Share Program 2015/2018”), is further described below.

The Board of Directors intends to propose forthcoming annual general meetings to implement long-term incentive programs on similar conditions that apply to the now proposed Performance Share Program 2015/2018.

Main changes compared to the Performance Share Program 2014/2017

In order to strengthen the link to long-term company performance, as well as to simplify and to align the program with market trends, the following main changes are proposed to the Performance Share Program 2015/2018 as compared to the Performance Share Program 2014/2017:

- The employee own investment (2 percent of annual gross base salary i.e. before taxes) requirement is removed to simplify the design of the program and align it with market practice in countries outside Sweden, thereby improving the Group’s ability to recruit and retain key employees internationally,
- an EBITDA (Earnings Before Interest, Tax, Depreciation and Amortization) target is introduced instead of the EPS target in order to improve the participant’s line-of-sight to selected performance measures and to align the performance measures with the Group’s strategic priorities. In addition, a three year performance period is introduced for the EBITDA target in order to focus on long-term Group performance, whereas the performance period for the EPS target was one year,
• the TSR (relative) performance condition has been retained on the same basis as for LTI 2014/2017 with the following changes: in the Peer Group, two new companies are added (TDC and Swisscom), one company (Telecom Austria) is removed to improve the Peer Group relevance, and minimum vesting starts at the median position #6, which results in minimum vesting of 7.5 percent of salary (2014 minimum vesting was 3.75 percent) to align the vesting schedule with market and best practices, and
• the secondary cap for monetary payout is set at 60 percent of annual base salary.

Outline of the Performance Share Program 2015/2018

The Performance Share Program 2015/2018 shall be offered to approximately 200 key employees within the Group. Provided that certain performance conditions, consisting of financial targets linked to EBITDA and TSR (Total Shareholder Return), are met during the financial years 2015-2017 (the “Performance Period”), participants in the Performance Share Program 2015/2018 shall be given the opportunity to receive TeliaSonera shares without consideration (“Performance Shares”).

Participants in the Performance Share Program 2015/2018 will be granted a conditional award over Performance Shares, which is a right to receive a specific number of such shares at a future date provided the relevant conditions are met. The maximum number of Performance Shares which can be subject to an award at the time of grant remains unchanged from 2014. Under the Performance Share Program 2015/2018, the number of Performance Shares subject to an award at the time of grant may not have an aggregate market value which exceeds 30 percent of the participant’s annual gross base salary (i.e. before taxes) per year-end 2014 or, if a participant has become employed thereafter, the calculated annual gross base salary for 2015 (the “2014 Base Salary”).

Further, the maximum aggregate market value of Performance Shares which can be received by a participant following the end of the Performance Period (i.e. on the vesting of the award when the participant becomes entitled to receive their shares) shall not exceed 60 percent of the participant’s annual gross base salary (i.e. before taxes) per year-end 2017 (the “2017 Base Salary”).

The receipt of Performance Shares is normally subject to continued employment within the Group up to and including the day of publication of the Interim report for the first quarter of 2018.

Participants will receive their Performance Shares following the publication of the Company’s Interim report for the first quarter of 2018.

The Performance Share Program 2015/2018 shall in total comprise of no more than 3,793,200 TeliaSonera shares, which corresponds to approximately 0.08 percent of the total number of outstanding shares in the Company.

The Board of Directors’ full proposal is set out in item (a) below.

The value of and the estimated costs for the Performance Share Program 2015/2018

The participants’ rights to receive Performance Shares under the program are not securities and cannot be pledged or transferred to others. Neither are any shareholders’ rights transferred to participants in the program prior to the day when they receive their Performance Shares and become the owners of the shares. An estimated market value of the conditional rights to receive Performance Shares can however be calculated. The Board of Directors has calculated the total value for the rights to receive Performance Shares under the Performance Share Program 2015/2018 as approximately SEK 48.4 million, under the following essential assumptions: (i) a share price of SEK 51.03 calculated as the average of the daily noted volume-weighted purchase price of the Company’s shares on Nasdaq Stockholm’s official list during December 2014, (ii) an annual employee turnover of five percent, (iii) a share price appreciation of five percent per annum, (iv) a 50 percent achievement of the TSR
performance condition and (v) a 50 percent achievement of the EBITDA performance condition. The total cost under these conditions would be SEK 77.4 million excluding the costs for the program’s hedging measures and assuming a 60 percent mark-up for social security costs and pensions. The costs are accounted for as staff costs (share-based benefits) over the three year Performance Period.

If the EBITDA performance condition is achieved to 100 percent whilst assumptions (i) through (iv) remain unchanged, the total value of the Performance Share Program 2015/2018 is estimated to be approximately SEK 72.6 million. The total cost would in this case be SEK 116.1 million.

If EBITDA and TSR performance conditions are achieved to 100 percent, the total value of the Performance Share Program 2015/2018 would amount to SEK 96.8 million assuming conditions (i) through (iii) remain unchanged. The total costs would in this case amount to SEK 154.8 million.

Dilution and effects on key ratios

The Performance Share Program 2015/2018 will not entail any dilution effect, as the program is proposed to be hedged by either treasury shares or a hedging arrangement with a bank or another financial institution relating to already issued shares.

The costs for the Performance Share Program 2015/2018 are expected to have a marginal effect on the Group’s key ratios.

Preparation of the proposal

The proposal regarding the Performance Share Program 2015/2018 to the annual general meeting 2015 has been prepared by the Company’s remuneration committee and the Board of Directors has resolved to present this proposal to the annual general meeting 2015.

Hedging

The Board of Directors has considered two alternative hedging methods for the Performance Share Program 2015/2018; either (i) a hedging arrangement with a bank or other financial institution securing delivery of shares under the program or (ii) the transfer of shares held by the Company itself to participants in the Performance Share Program 2015/2018. The Board of Directors considers the latter alternative as its preferred option. However, should the annual general meeting not approve the proposed transfer of own shares to participants in the program, the Board of Directors may enter into a hedging arrangement with a third party to hedge the obligations of the Company to deliver Performance Shares under the program as set out above.

Since the social security costs are not expected to be significant in comparison with the Company’s operating cash flow, such costs are intended to be financed by cash and bank holdings.

The Board of Directors’ proposal for resolution

The Board of Directors proposes that the annual general meeting 2015 resolves to (i) implement the Performance Share Program 2015/2018, based on no more than 3,793,200 Performance Shares, and on the further main terms and conditions set out in item (a) below, and (ii) transfer own shares to participants in the program, and to subsidiaries within the Group in order to secure their obligations to deliver Performance Shares under the program, in accordance with item (b) below.

(a) Main terms and conditions for the Performance Share Program 2015/2018

1. The Performance Share Program 2015/2018 shall be offered to approximately 200 key employees within the Group who will receive a conditional award over a number of Performance Shares (i.e. a right to receive such shares at a future date if the relevant conditions are met) in 2015.
2. Each participant will receive an award over a number of Performance Shares with an aggregate market value not exceeding 30 percent of the participant’s 2014 Base Salary. The market value shall be calculated based on the average of the daily noted volume-weighted purchase price of the Company’s shares on Nasdaq Stockholm’s official list during December 2014.

3. Provided that the performance conditions described below, consisting of financial targets linked to EBITDA and TSR, are met during the Performance Period, participants in the Performance Share Program 2015/2018 will receive the Performance Shares subject to their award without consideration.

4. The performance conditions applying to the awards granted under the Performance Share Program 2015/2018 will be based 50 percent on the Company’s growth in EBITDA during the Performance Period (“EBITDA Part”) and 50 percent on the Company’s TSR during the Performance Period (“TSR Part”) in relation to TSR in a peer group of approximately 10 comparable Nordic and western European telecom companies defined by the Board of Directors (“TSR Comparator Group”).

5. The financial targets include a minimum level which must be achieved in order for any Performance Shares to be received at all, as well as a maximum level in excess of which no additional Performance Shares will be received. Should lower financial results than the maximum levels be achieved, a proportionate lower number of Performance Shares may be received.

6. The receipt of Performance Shares shall normally be subject to the participant’s continued employment within the Group up to and including the day of publication of the interim report for the first quarter 2018.

7. Participants will receive their Performance Shares following the publication of the Company’s interim report for the first quarter 2018. Rounding off shall be made to the closest whole number of Performance Shares.

8. The maximum number of Performance Shares a participant may receive under the Performance Share Program 2015/2018 shall have an aggregate market value not exceeding 60 percent of the participant’s 2017 Base Salary. The market value shall be calculated based on the average of the daily noted volume-weighted purchase price of the Company’s shares on Nasdaq Stockholm’s official list during 20 trading days prior to the day of publication of the Interim report for the first quarter of 2018. Rounding off shall be made to the closest whole number of Performance Shares.

9. The Performance Share Program 2015/2018 shall in total comprise of no more than 3,793,200 TeliaSonera shares, which corresponds to approximately 0.08 percent of the total number of outstanding shares in the Company.

10. Recalculation of the number of Performance Shares subject to an award granted under the Performance Share Program 2015/2018 shall take place in the event of an intervening bonus issue, share purchase offer, split, rights issue and/or other similar events.

11. In addition to what is set out above, the Board of Directors shall under certain circumstances be entitled to reduce the number of Performance Shares subject to an award or, wholly or partially, terminate the Performance Share Program 2015/2018 in advance and to make such local

2 EBITDA is defined as Earnings Before Interest, Taxes, Depreciation and Amortization, with a possibility for the Board of Directors to make adjustments for extraordinary events and/or exchange rate fluctuations.

3 TSR is equal to the overall return a shareholder would receive on his or her shareholding taking into account both share price appreciation and dividends (if any). When calculating TSR, an average TSR-index number for December 2014 shall be compared with December 2017 for the Company and for the companies included in the peer group defined by the Board of Directors. The peer group presently consists of Telenor ASA, Elisa Oyj, Tele2 AB, KPN N.V., Orange S.A., Deutsche Telekom AG, Vodafone Group Plc, Telefonica S.A., TDC A/S and Swisscom AG.
adjustments of the program that may be necessary or appropriate to implement the program with reasonable administrative costs and efforts in the concerned jurisdictions, including, among other things, to offer cash settlement.

12. The Board of Directors shall be responsible for the further design and administration of the Performance Share Program 2015/2018 within the framework of the above stated main terms and conditions.

Performance conditions

EBITDA performance condition

The EBITDA performance targets set by the Board of Directors for the Performance Period will stipulate a minimum level which must be achieved in order for any Performance Shares to be received under the EBITDA Part at all, as well as a maximum level in excess of which no additional Performance Shares will be received under the EBITDA Part. The performance outcome will be determined by the Board of Directors after the expiry of the Performance Period, in 2018. In connection therewith the Board of Directors will also publish the EBITDA performance results.

Relative TSR performance condition

If the Company's TSR during the Performance Period places the Company at first or second place in the TSR Comparator Group, the participant is entitled to receive the maximum TSR Part. If the Company's TSR during the Performance Period places the Company below the median in the TSR Comparator Group, the participant is not entitled to receive any of the TSR Part. If the Company's TSR during the Performance Period places the Company at or above the median in the TSR Comparator Group, but not at first or second place in the TSR Comparator Group, the participant shall be entitled to receive a proportionate number of the Performance Shares under the TSR Part as determined by the Board.

(b) Transfer of own shares

The transfer of own shares to participants in the Performance Share Program 2015/2018, and to subsidiaries within the Group in order to secure their obligations to deliver Performance Shares under the program, may be made on the following terms and conditions.

1. No more than 3,793,200 TeliaSonera shares may be transferred to participants in the Performance Share Program 2015/2018 as Performance Shares.

2. The entitlement to receive Performance Shares without consideration shall only be offered to persons within the Group who are participants in the Performance Share Program 2015/2018. In addition, subsidiaries shall be entitled to acquire shares without consideration in order to immediately transfer such shares to participants in the Performance Share Program 2015/2018 in accordance with the terms and conditions of the Performance Share Program 2015/2018.

3. The transfer of shares without consideration shall be made when the participants are entitled to receive their Performance Shares in accordance with the terms and conditions of the Performance Share Program 2015/2018, which will be following the publication of the Company's interim report for the first quarter 2018.

4. The number of shares that may be transferred shall be subject to recalculation in the event of an intervening bonus issue, share repurchase offer, split, rights issue and/or other similar events.

The reason for this proposed deviation from the shareholders’ preferential rights is because the transfer of own shares is an integral part of the implementation of the Performance Share Program 2015/2018.
and the Board of Directors considers that the implementation of the Performance Share Program 2015/2018 will be to the advantage of the Company and the shareholders as it offers participants the opportunity to become shareholders in the Company.

The Board of Directors proposes that the resolutions under items (a) and (b) above will be voted on at the annual general meeting as two separate resolutions. The proposal under item (b) on the proposed hedging arrangements is conditional on the annual general meeting having approved item (a), i.e. the implementation of the proposed program.

**Matter proposed by shareholders**

**Item 21 – Proposal from shareholder Thorwald Arvidsson about publication of Norton Rose Fulbright’s report**

Proposal from shareholder Thorwald Arvidsson that the annual general meeting must deal with the question of publishing the full report drawn up by the law firm Norton Rose Fulbright.

The Board of Directors recommends the shareholders to vote against the shareholder proposal.

**Item 22 - Proposal from shareholder Thorwald Arvidsson**

The proposals are set out in item 22 of the proposed agenda.

**Majority requirements**

A resolution on authorization for the Board of Directors to decide on acquisition of the Company’s own shares under Item 19 will be valid only if the proposal is supported by shareholders representing at least two-thirds of both the votes cast and shares represented at the meeting.

A resolution on implementation of the proposed long-term incentive program under Item 20 (a) will be valid if the proposal is supported by a simple majority of the votes cast. A resolution on hedging arrangements for the program under Item 20 (b) will be valid only if the proposal is supported by shareholders representing at least nine-tenths of both the votes cast and shares represented at the meeting.

TeliaSonera AB (publ)
The Board of Directors
STATEMENT BY THE BOARD OF DIRECTORS OF TELIASONERA AB (PUBL) (THE "COMPANY") AS REQUIRED UNDER CHAPTER 18, SECTION 4 OF THE SWEDISH COMPANIES ACT

In light of the dividend proposal by the Board of Directors to the annual general meeting 2015, the Board of Directors submits the following statement as required under Chapter 18, section 4 of the Swedish Companies Act.

At December 31, 2014, the Company’s restricted equity totalled approximately SEK 15,711 million and its non-restricted equity was approximately SEK 68,021 million. At the same date the Group’s total equity attributable to the shareholders of the Company totalled approximately SEK 111,383 million.

The equity of the Company would have been approximately SEK 104 million lower if derivative instruments and other financial instruments, valued at fair value, had instead been valued on the basis of the lower of cost or net realizable value for non-current assets and the lower of cost or market value for current assets.

Provided that a resolution is passed at the annual general meeting in accordance with the Board of Directors’ proposal for a dividend, an amount of approximately SEK 55,030 million will be carried forward.

The business of the Company and the Group do not involve any risks other than those related to or expected to be related to the Company’s and Group’s line of business or the risks involved in conducting business in general. The Company’s and the Group’s dependence on market conditions does not differ from that seen within the Company’s and Group’s line of business. The Board of Directors considers that after the proposed dividend and taking into account the proposed repurchase authorization, the Company’s restricted equity and the Group’s total equity attributable to the shareholders of the Company will be sufficient in relation to the scope of the Company’s and the Group’s business.

At December 31, 2014, after deduction of the proposed dividend and assuming full exercise of the proposed authorization, the Company’s financial strength measured as its equity to assets ratio was 26.0 percent (at December 31, 2013, 24.5 percent). At December 31, 2014, the Group’s financial strength, measured in the same way, was 29.8 percent (at December 31, 2013, 30.5 percent). Taking into account the proposed repurchase authorization, the proposed dividend does not jeopardize the Company’s or the Group’s abilities to carry out the investments considered necessary. The proposal is also consistent with the established cash-flow forecast under which the Company and the Group are expected to manage unexpected events and temporary variations in the cash flows to a reasonable extent.

In light of the above, it is the Board of Directors’ view that, taking into account the proposed repurchase authorization, the dividend is justified in view of the equity requirements of the Company and the Group arising from the type, scope and risks of its business as well as the Company’s and the Group’s need to strengthen its balance sheets, liquidity and position in general.

REPORT ON THE WORK OF THE NOMINATION COMMITTEE AND REASONED STATEMENT

TeliaSonera’s Nomination Committee 2014–2015

1. Report on the work of the Nomination Committee and reasoned statement regarding the composition of the Board of Directors

At the annual general meeting held on April 2, 2014 in TeliaSonera (the “Company”), it was resolved that the Nomination Committee shall consist of the following persons: Magnus Skåninger, chair (Swedish State), Kari Järvinen (Solidium Oy), Jan Andersson (Swedbank Robur Funds), Per Frennberg (Alecta) and Marie Ehring (chair of the Board of Directors). Later during the year, Magnus Skåninger was replaced by Niklas Johansson.

No other shareholder has, within the scope of the instructions for the Nomination Committee, made a request to take part in the work of the Nomination Committee. Within its activities, the Nomination Committee has complied with the Swedish Corporate Governance Code and with the instructions for the Nomination Committee approved by the annual general meeting.

The Nomination Committee has held 5 recorded meetings since the annual general meeting on April 2, 2014. The Nomination Committee has performed interviews and received information from the chair of the Board of Directors, other directors and the CEO on internal work of the Board of Directors, the Company’s position, strategic direction and other relevant circumstances. Based on this information, the Nomination Committee has assessed the functioning of the Board of Directors and the competences needed in the Board of Directors as a whole. The Nomination Committee has received and processed proposal on new election of directors from one shareholder. The Nomination Committee has concluded that the present Board of Directors is functioning well and that the competences currently needed are experience from:

- The telecommunications industry and industries closely related to it
- Internet-based operations
- Relevant markets
- Consumer-oriented operations and markets
- Operational sustainability work
- Board work in listed companies

On the basis of these competence needs, the Nomination Committee has evaluated the competences of the present directors and the composition of the Board of Directors. Taking into account the competences needed in the future, diversity, the gender distribution on the Board of Directors, the competences and functioning of the present directors and the present directors’ availability for re-election, the Nomination Committee has decided to nominate the present directors for re-election at the annual general meeting.

The Nomination Committee has specifically discussed the Corporate Governance Code’s requirements of an equal gender distribution in the Board of Directors. The proposed Board of Directors consists of three women and five men, corresponding to a women quota of 38%.

The Nomination Committee proposes that the remuneration for the chair of the Board is increased by 24% and the remuneration for the ordinary directors by 13%. The proposal reflects the Nomination Committee’s ambition that the level of the remuneration shall be in line with remunerations in comparable companies.

The Company’s audit committee has proposed Deloitte AB to be re-elected as auditor for the period until the end of the annual general meeting 2016. The Nomination Committee concurs this proposal and has decided to propose that the audit company Deloitte AB be elected as auditor for the period until the end of the annual general meeting 2016.

2. The Nomination Committee presents the following proposals to TeliaSonera’s annual general meeting 2015

2.2 Directors
The Nomination Committee proposes re-election of:
Marie Ehrling, Mats Jansson, Olli-Pekka Kallasvuo, Mikko Kosonen, Nina Linander, Martin
Lorentzon, Per-Arne Sandström and Kersli Strandqvist.
It is the opinion of the Nomination Committee that all nominated directors are independent in
relation to the Company and the major shareholders.

2.3 Chair of the Board of Directors
The Nomination Committee proposes re-election of Marie Ehrling as chair of the Board of Directors.

2.4 Vice chair of the Board of Directors
The Nomination Committee proposes re-election of Olli-Pekka Kallasvuo as vice chair of the Board

• Other members of the audit committee: SEK 100,000 (unchanged)
• Chair of the Board of Directors’ remuneration committee: SEK 65,000 (unchanged)

• Chair of the Board of Directors’ sustainability and ethics committee: SEK 150,000
  (unchanged)
• Other members of the sustainability and ethics committee: SEK 100,000 (unchanged)

2.7 Auditors
The Nomination Committee proposes that there will be one auditor with no deputy auditors for the
period until the end of the annual general meeting 2016 and that the audit company Deloitte AB be
elected as auditor.
The Nomination Committee proposes that remuneration to the auditor will be paid as per invoice.

2.8 Nomination Committee and instruction for the Nomination Committee
The Nomination Committee has reviewed the latest available information on the owners of the
Company and has received proposals for members from the owners with the largest shareholdings
in terms of voting rights. The Nomination Committee’s proposal for members of the Nomination
Committee until the annual general meeting 2016 is as follows: Daniel Kristiansson (Swedish
State), Kari Järvinen (Solidium Oy), Jan Andersson (Swedbank Robur Funds), Anders Oscarsson
(AMF and AMF Funds) and Marie Ehrling (chair of the Board of Directors).
The Nomination Committee has also reviewed the instruction for the Nomination Committee and
proposes the instruction set out in appendix 1. The Nomination Committee has amended Section 1 of
the instruction as follows (changed text in italic):

“Four members shall represent the four shareholders that are largest in terms of votes at the turn of the month that occurs immediately prior to 30 days before the notice of the annual general meeting is issued and which also wish to participate in the nomination process (“Nominating Shareholders”).

In addition to the amendments above, the Nomination Committee has proposed certain clarifications to the instruction.

STATEMENT BY THE BOARD OF DIRECTORS OF TELIASONERA AB (PUBL) (THE “COMPANY”) AS REQUIRED UNDER CHAPTER 19, SECTION 22 OF THE SWEDISH COMPANIES ACT

In light of the proposal by the Board of Directors that the annual general meeting 2015 resolve to authorize the Board of Directors to acquire the Company’s own shares, the Board of Directors submits the following statement as required under Chapter 19, section 22 of the Swedish Companies Act.

At December 31, 2014 the Company’s restricted equity totalled approximately SEK 15,711 million and its non-restricted equity was approximately SEK 68,021 million. At the same date the Group’s total equity attributable to the shareholders of the Company totalled approximately SEK 111,383 million.

The equity of the Company would have been approximately SEK 104 million lower if derivative instruments and other financial instruments, valued at fair value, had instead been valued on the basis of the lower of cost or net realizable value for non-current assets and the lower of cost or market value for current assets.

If the authorization is fully exercised, the estimated cost of acquiring the Company’s own shares under the proposed authorization for the Board of Directors totals approximately SEK 22,070 million at an average price of SEK 50.97 per share.

The Board of Directors considers there will be full coverage for the Company’s restricted equity after distribution of a dividend of SEK 3.00 per share for the financial year 2014, in total approximately SEK 12,990 million, having acquired the full number of its own shares included in the repurchase authorization proposed by the Board of Directors.

The business of the Company and the Group does not involve any risks other than those related to or expected to be related to the Company’s and the Group’s line of business or the risks involved in conducting business in general. The Company’s and the Group’s dependence on market conditions does not differ from that seen within the Company’s and the Group’s line of business. The Board of Directors considers that after distribution of dividend for the financial year 2014 and full exercise of the proposed authorization for acquisition of the Company’s own shares, the Company’s restricted equity and the Group’s total equity attributable to the shareholders of the Company will be sufficient in relation to the scope of the Company’s and the Group’s business.

At December 31, 2014, after deduction of the proposed dividend and assuming full exercise of the proposed authorization, the Company’s financial strength measured as its equity to assets ratio was 26.0 percent. At December 31, 2014, the Group’s financial strength, measured in the same way, was 29.8 percent. Taking into account the proposed dividend distribution, the exercise of the proposed authorization for acquisition of the Company’s own shares does not jeopardize the Company’s or the Group’s abilities to carry out the investments considered necessary. The proposal is also consistent with the established cash flow forecast under which the Company and the Group are expected to manage unexpected events and temporary variations in the cash flows to a reasonable extent.

---

5 The Board of Directors proposes a repurchase authorization of a maximum of 10 percent of the total number of all shares in the Company, corresponding to 433,008,478 shares.
6 Based on the average closing price in January 2015 (first 11 trading days).
In light of the above, it is the Board of Directors’ view that, taking into account the proposed dividend distribution, the proposed authorization for acquisition of the Company’s own shares is justified, in view of the equity requirements of the Company and the Group arising from the type, scope and risks of its business as well as the Company’s and the Group’s need to strengthen its balance sheets, liquidity and position in general.
