

Dear Supplier,

At Telia Company we highly value our cooperation with you and would like to invite you to join a new daring journey with us.

Telia Capital Markets Day 2019

Telia Company hosted on March 26th, 2019 Capital Markets Day at Stockholm where the Group Executive Management presented updates on our strategic direction, financial priorities and announced our new sustainability targets.

You can find presentation material and play-on-demand recording of the Capital Markets Day 2019 webcast from <https://www.teliacompany.com/en/investors/reports-and-presentations/presentations/capital-markets-day-2019/>

Our Daring Goals

It is widely recognized that steps must be taken in order to keep the warming of the planet under 1,5 degrees. This will not be reached by governments and public sector alone, but we in the private sector also need to put in the next gear.

That's why we have taken a pledge that by 2030 at the latest, Telia Company will aim to achieve zero CO2 and zero waste. We call these green commitments our Daring Goals.

Most companies in the world want to contribute to the fight against climate change and are already changing their operations to meet customers' expectations. By joining forces we create value for our respective companies while also creating value for the society.

Daring Goals: Implications to our suppliers

As an important Telia supplier, we invite you to join us on this journey. While it is not possible to make a detailed plan until 2030, together we can develop a plan for the next 3-4 years. We believe that this will drive innovation, enable us to learn from each other, find new business opportunities and realize these goals.

In very practical terms this means that

- During 2019, Telia is adding CO2 into our supplier selection criteria
- By 2022 we want you to have a plan in place for reaching zero CO2 for your whole operation, including your suppliers
- By 2030 all Telia Company's suppliers will have reached zero CO2 in their whole operations, including their suppliers

This is not a short-term project, but a new mindset and an integrated part of our business going forward. In some areas we have made some progress already but, in many areas, there is a lot of work remaining. We look forward to discussing this further in our upcoming meetings.

If you have any immediate questions, please contact your Telia Sourcing contacts or sourcing-telia@teliacompany.com to start further dialogue on our daring goals.

Best regards,

Johan Dannelind
